

Toepassing van die Feedtek lekblok reeks

Tipe diere	Stadium van produksie	Droë weiding / ruvoer	Groen weiding
Kleinvee	Droog en dragtig	Problok 280	Fosblok 60
	Laat dragtig en lakterend	Turboblok 150	Superblok 150
	Kruipvoer vir lammers	Kruipblok 150 (Elite)	Kruipblok 150 (Elite)
Vleisbeeste	Alle stadia	Problok 280	Fosblok 60
	Uitgroei van verse en osse	Turboblok 150	Superblok 150
	Kruipvoer vir kalwers	Kruipblok 150 (Elite)	Kruipblok 150 (Elite)
Suiwelbeeste	Uitgroei van verse	Turboblok 150	Superblok 150
	Dragtige koeie en verse	Problok 280	Fosblok 60
Alle tipe vee	Aanvulling van spoorminerale	Traceblok	Traceblok
Wild en perde	Alle stadia	Superblok 150	Fosblok 60

Application of the Feedtek range of lick blocks

Type of stock	Stage of production	Dry grazing / roughage	Green grazing
Small stock	Dry and pregnant	Problok 280	Fosblok 60
	Late pregnant and lactating	Turboblok 150	Superblok 150
	Creep feed for lambs	Kruipblok 150 (Elite)	Kruipblok 150 (Elite)
Beef cattle	All stages	Problok 280	Fosblok 60
	Growing out heifers and oxen	Turboblok 150	Superblok 150
	Creep feed for calves	Kruipblok 150 (Elite)	Kruipblok 150 (Elite)
Dairy cattle	Growing out heifers	Turboblok 150	Superblok 150
	Pregnant cows and heifers	Problok 280	Fosblok 60
All types of livestock	Supplying additional trace minerals	Traceblok	Traceblok
Game and horses	All stages	Superblok 150	Fosblok 60

LEKBLOK REEKS LICK BLOCK RANGE

Waar die wetenskap, tegnologie en gerief mekaar ontmoet
Where science, technology and convenience meet

Problok 280 (v19498)

Type aanvulling: Proteïen, mineraal, spoorminerale vitamien aanvulling vir herkouers
Unieke eienskappe: Bevat 'n hoë vlak van hoë kwaliteit deurvloeioproteïene
 Bevat hoë vlakke van beide vitamien A en vitamien E
Gebuike: Ideaal vir groeiende of lakterende grootvee op droë weiding / ruvoer
 Ideaal vir droë en dragtige kleinvee op droë weiding / ruvoer

Type of supplement: Protein, mineral, trace mineral, vitamin supplement for ruminants
Unique features: Contains a high level of high quality bypass protein
 Contains high levels of both vitamin A and vitamin E
Applications: Ideal for growing or lactating large stock on dry grazing / roughage
 Ideal for dry and pregnant small stock on dry grazing / roughage

Turboblok 150 (v19499)

Type aanvulling: Energie, proteïen, mineraal, spoorminerale vitamien aanvulling vir herkouers
Unieke eienskappe: Bevat 'n hoë vlak van hoë kwaliteit deurvloeioproteïene
 Bevat hoë vlakke van beide vitamien A en vitamien E
Gebuike: Ideaal vir uitgroei en afronding van alle herkouers op droë weiding / ruvoer
 Ideaal vir groeiende of lakterende kleinvee op droë weiding / ruvoer

Type of supplement: Energy, protein, mineral, trace mineral, vitamin supplement for ruminants
Unique features: Contains a high level of high quality bypass protein
 Contains high levels of both vitamin A and vitamin E
Applications: Ideal for growing out and finishing of all ruminants on dry grazing / roughage
 Ideal for growing or lactating small stock on dry grazing / roughage

Fosblok 60 (v27851)

Type aanvulling: Mineraal spoorminerale aanvulling vir alle herkouers, wild en perde
Unieke eienskappe: Bevat hoë vlakke van swael en magnesium
 Bevat hoë vlakke van alle essensiële spoorminerale
Gebuike: Ideaal as minerale aanvulling vir alle tipes vee op groen weiding
 Ideaal as minerale aanvulling vir alle tipes vee op kraal of stal, insluitend perde

Type of supplement: Mineral trace mineral supplement for ruminants, game and equine
Unique features: Contains high levels of sulphur and magnesium
 Contains high levels of all essential trace minerals
Applications: Ideal as mineral supplement for all types of livestock on green grazing
 Ideal as mineral supplement for all types of livestock in the kraal or stable, including horses

Traceblok (v16339)

Type aanvulling: Spoorminerale aanvulling vir alle herkouers, wild en perde
Unieke eienskappe: Bevat 'n kombinasie van anorganiese en organiese spoorminerale
Gebuike: Ideaal vir addisionele aanvulling van spoorminerale tydens kritiese produksie tyd
 Ideaal as spoorminerale aanvulling vir ekstensiewe wild wat ingekamp is
 Ideaal as spoorminerale aanvulling vir perde beide op weiding sowel as op stal

Type of supplement: Trace mineral supplement for all ruminants, game and equine
Unique features: Contains a combination of inorganic and organic trace minerals
 Ideal for supplying additional trace minerals during critical stages of production
Applications: Ideal for supplying additional trace minerals for extensive game being camped in
 Ideal for supplying additional trace minerals for horses both on grazing / stables

Superblok 150 (v27876)

Type aanvulling: Energie, proteïen, mineraal, spoorminerale vitamien aanvulling vir herkouers, wild en perde
Unieke eienskappe: Bevat slegs hoë kwaliteit natuurlike proteïene (nie-proteïen-stikstof vry)
 Bevat hoë vlakke van beide vitamien A en vitamien E
Gebuike: Ideaal vir wild en perde op enige weiding, kraal of op stal
 Ideaal vir lakterende kleinvee op groen weiding vir bies- en melkproduksie

Type of supplement: Energy, protein, mineral, trace mineral, vitamin supplement for ruminants, game and equine
Unique features: Contains only high quality natural protein (non-protein-nitrogen free)
 Contains high levels of both vitamin A and vitamin E
Applications: Ideal for game and horses on any grazing, in kraal or in stables
 Ideal for lactating small stock on green grazing for colostrum and milk production

Kruipblok 150 (Elite) (v27972)

Type aanvulling: Energie, proteïen, mineraal, spoorminerale vitamien aanvulling vir herkouers
Unieke eienskappe: Is die enigste kruipvoer in gerieflik blokvorm tans beskikbaar
 Bevat essensiële olies, pro-biotika, effektiewe vesel en 'n anti-oksident vir vinnige rumen ontwikkeling, stimulering van eetlus, beter vertering asook verhoogde immuniteit
Gebuike: Ideaal as kruipvoer vir voorspeense kalwers en lammers

Type of supplement: Energy, protein, mineral, trace mineral, vitamin supplement for ruminants
Unique features: Is the only creep feed available in a convenient block form
 Contains essential oils, pro-biotic, effective fibre and an anti-oxidant for fast development of the rumen, stimulating of appetite, improved digestion and elevated immunity levels
Applications: Ideal as creep feed for pre-weaned calves and lambs
